### 8-SA-OS Oversize Revolving Heads

Our 8-SA Oversize Heads are now even bigger! These OEM field-retrofit heads can now be ordered in any custom size up to Ø8.850 (previously Ø8.790 max). This is the largest Revolving Head size allowed that will fit within the ring gear. These new larger heads will allow customers to get several additional rebuilds on machines that have already been re-bored to an oversize condition, and can extend the service life of a well-used machine by many years.

#### Key facts of the new 8-SA-OS Oversize Heads

- Available in any size from Ø8.750 up to Ø8.850 maximum diameter.
- NO other changes required.
- Interchangeable with all current Davenport OEM components.
- The same quality and accuracy you would expect from Davenport OEM revolving heads.
- Extends life of existing machines.
- Allows the reconditioning of machines that have already been bored oversize.

Davenport Machine OEM parts are constantly being redesigned to maximize the *value* to the Customer. Any parts supplier can sell you yet another *replacement* part for your *problem*. Let the team at Davenport Machine supply you with a cost effective *solution* to it instead.
